Wrap - Printed on Metallic Silver

173.86 x 51 mm
Silver PP

Standard white semi-gloss paper available on request
Minimum Bleed = 2mm

White ink is used in this design as a solid colour for text and to highlight parts of the pattern. It can be used to print underneath areas of the design as a solid colour or as a percentage to create strong or weak metallic effects. To do this it must be set as "overprint".
