- 6 **External corners**
Octagonal pillars only
- 7 **Wall ends**
Octagonal pillars only
- 8 **Diagonal (135°) corners**
Octagonal and square pillars
- 9 **Internal “floating” corners**
Usually square pillars
- 10 **Wall ends**
Usually square pillars

INSERTING SHELL-CLAD CLIPS

Clip into place by squeezing arrow head at one end and gradually pushing into the shell scheme groove (See Fig 1 & 2)

Gentle pressure may be necessary but this can be achieved by hand, ie no tools are required.

Do NOT align a full length and force into position.

The bottom Shell-Clad clip should be rested on the pillar base otherwise your Shell-Clad will be visible above your graphics.

REMOVING SHELL-CLAD CLIPS

Squeeze the arrow head at one end, twist either clockwise or anti-clockwise and pull out of shell scheme.

WARNING: Shell-Clad has right angled (sharp) edges. Please be careful not to cut yourself when working with this product.

Shell-Clad is designed to attach graphics and similar lightweight materials to a shell scheme. Do not attempt to hang heavy objects with Shell-Clad.

DISCLAIMER: THE MANUFACTURER OF SHELL-CLAD TAKES NO RESPONSIBILITY FOR THE MIS-USE OR INCORRECT USE OF THIS PRODUCT.

FINALLY & VERY IMPORTANTLY

Not all shell schemes are the same. Please contact us a month before your next show to check the compatibility of your system with other shell schemes.

SHELL-CLAD | IT'S ALL ABOUT IMPACT
